About this Report

This report is based on the completion of Saville Assessment Wave® Performance 360 which explores performance in a number of work areas.

The results are based on the responses of Chris Park (the assessee) and the raters' evaluation of the assessee's performance at work. To compare the assessee's performance in these areas to that of others, the responses have been compared to 12592 Performance 360 ratings given on a group of professionals and managers.

Since the results are based on an evaluation of performance made by Chris Park and the other raters, they reflect the assessee's own perception and the perception of the raters. The results should only be regarded as an indication of the assessee's past performance. Our extensive research has shown that these ratings can be a good measure of work performance from the perspective of different stakeholders.

It should be remembered that the information contained in this report is potentially sensitive and every effort should be made to ensure that it is stored in a secure place.

This report was produced using Saville Assessment software systems. It has been derived from the results of an assessment completed by the assessee and the raters and reflects the responses they have made.

This report has been generated electronically. Saville Assessment do not guarantee that it has not been changed or edited. We can accept no liability for the consequences of the use of this report, howsoever arising.

The application of this assessment is limited to Saville Assessment employees, agents of Saville Assessment and clients authorised by Saville Assessment.

Introduction to Report

This report is based on the completion of Saville Assessment Wave® Performance 360 by Chris Park and the other raters who completed the assessment.

Assessee and Raters

The results provided by the assessee and each group of raters in this report are each represented by a different shape. The number of individuals in each rater group is shown below in brackets.

-  **Boss (1)**
-  **Self (1)**
-  **Peer (3)**
-  **Report (3)**
-  **Other (3)**

Behaviour Profile

The overarching Saville Assessment Wave® model has different levels of detail with one page in this report devoted to each behavioural cluster at the highest level ([Solving Problems](#), [Influencing People](#), [Adapting Approaches](#), [Delivering Results](#)). Each page is split into three sections which in turn cover three dimensions each. This profile displays the results based on the 36 behaviour dimensions.

Ability Profile

The Saville Assessment Ability Model has one ability cluster ([Reasoning at Work](#)) which is comprised of two sections that in turn each cover three dimensions.

Summary Profile

The first part of the Summary Profile covers global ratings on: [Applying Specialist Expertise](#), [Accomplishing Objectives](#) and [Demonstrating Potential](#). The second part indicates the degree to which the assessee received positive or negative ratings on the behaviour clusters, ability cluster and the global performance ratings.

Behaviour Overview Profile

The Behaviour Overview Profile shows the combined effectiveness scores for the 12 behavioural sections and 36 behavioural dimensions. The combined scores are based on averaging the results of the rater groups. Arrows indicate where there are differences in the ratings for the 12 behavioural sections between individual raters.

Rater Comments

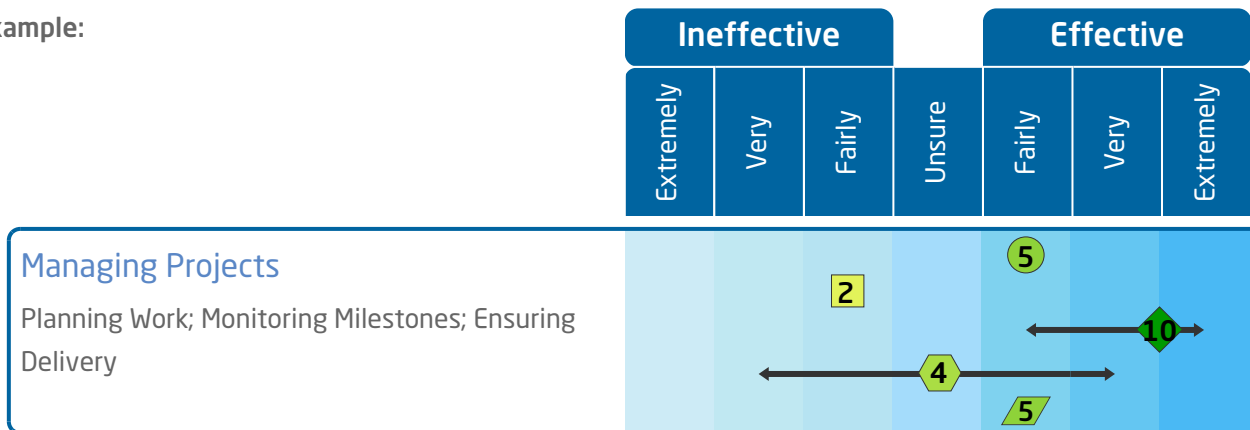

The final section presents any comments made by the different raters about Chris Park's performance at work.

Profile Breakdown

The results show the ratings on the 'Extremely Ineffective' to 'Extremely Effective' inventory scale. Each rater group is indicated by a different shaped marker as shown on the previous page.

The position of each shape on the scale indicates how the person being assessed was rated in each area. Where there is a difference between raters in a group, this is indicated by arrows either side of the marker.

Example:

In the example above, the assessee's Boss rating was fairly effective on 'Managing Projects' and the Self rating was fairly ineffective. The Peer ratings ranged from fairly effective to extremely effective and the aggregate Report ratings ranged from very ineffective to very effective. Finally, the Other ratings were fairly effective.

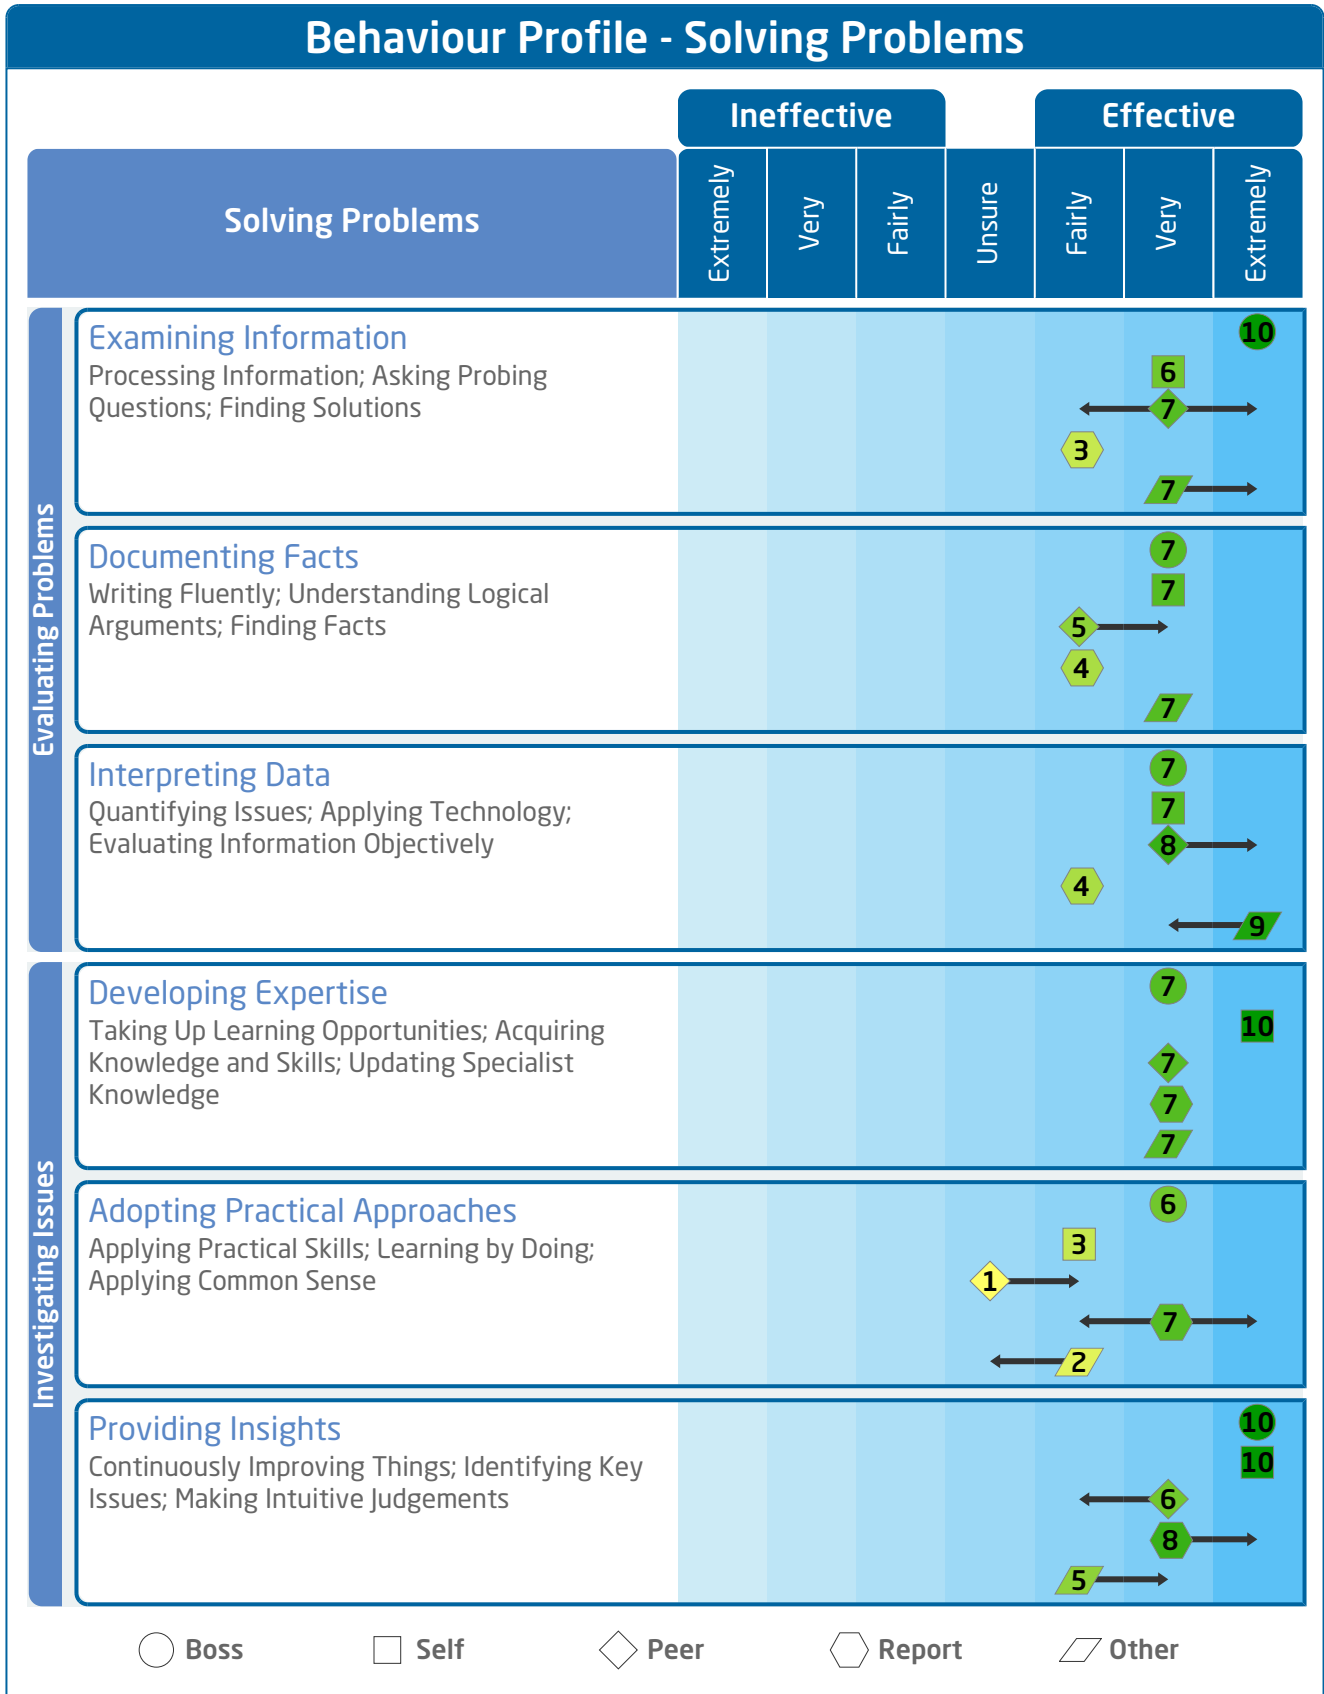

Comparison to Others:

The results of the assessee and raters have been compared with other individuals who have previously completed the assessment and are based on a 1 to 10 sten scale as shown below.

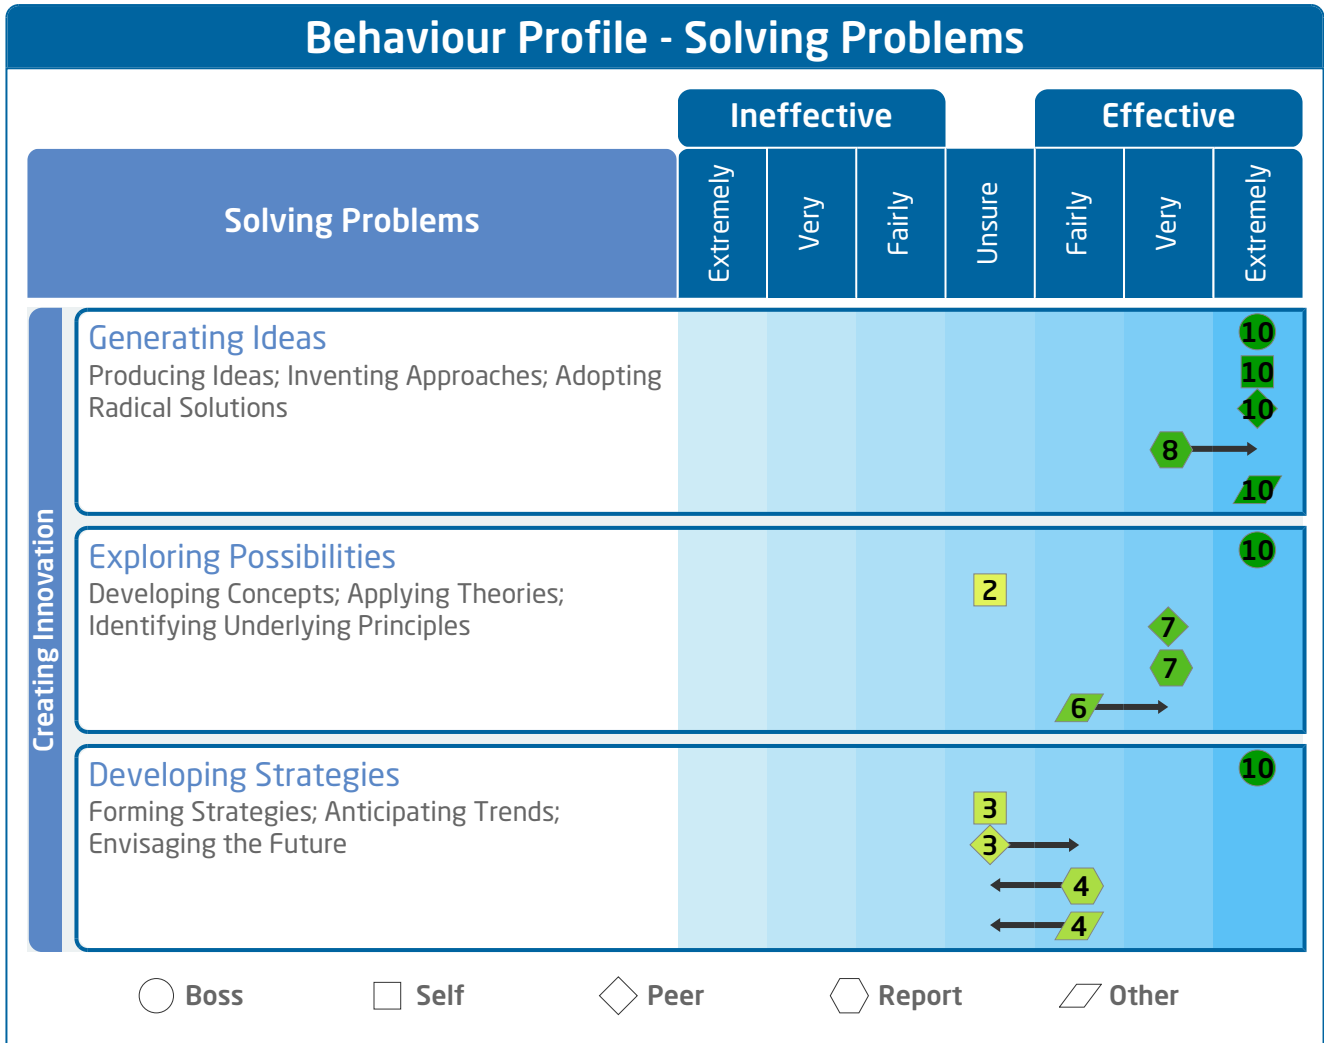

- 1 - Extremely Low** - performed better than only 1% of the comparison group
- 2 - Very Low** - performed better than only 5% of the comparison group
- 3 - Low** - performed better than only 10% of the comparison group
- 4 - Fairly Low** - performed better than only 25% of the comparison group
- 5 - Average** - performed better than only 40% of the comparison group
- 6 - Average** - performed better than 60% of the comparison group
- 7 - Fairly High** - performed better than 75% of the comparison group
- 8 - High** - performed better than 90% of the comparison group
- 9 - Very High** - performed better than 95% of the comparison group
- 10 - Extremely High** - performed better than 99% of the comparison group

In the example above, the assessee's Boss rating on 'Managing Projects' was average compared to the comparison group and the Self rating was very low. As compared to the comparison group, the Peer ratings were extremely high and the aggregate Report ratings were fairly low. Finally, the Other ratings were average compared to other individuals.
